Kitchen featured is Clerkenwell Gloss White

The Inclusive kitchen collection
For every stage of your life
About us

Howdens Joinery is the UK’s largest manufacturer and supplier of fitted kitchens, appliances and joinery products. We are a trusted, trade-only business that has been selling to trade professionals since 1995.

Our products are available from stock in over 650 depots throughout the UK, and in each depot, trained designers are on hand to support you and your builder in creating a kitchen that provides maximum independence - whether you have limited mobility or vision, and for every stage of your life.

We understand what it takes to create a kitchen that looks great, fits perfectly and most importantly, works - every time, every day. That’s why we only sell our products directly to professionals like your local builder. We do not endorse trade professionals directly, but to find a builder near you, talk to your local Howdens Joinery depot or visit www.howdens.com/about-us/find-a-local-builder.

Our product range

By working closely with the UK’s leading charity for disabled people, Leonard Cheshire Disability, for over 11 years, Howdens Joinery has developed a range of Inclusive kitchens and accessories designed for disabled people or those with limited mobility.

Howdens offers a choice of over 70 inspirational Inclusive kitchen designs, plus a full range of accessories, worktops, handles, sinks, taps, flooring, doors, and a wide variety of Lamona appliances exclusive to Howdens.

For your safety and convenience, our Inclusive range includes easy-to-reach ovens, remote control extractors, pull-out accessories, and height adjustable worktops and cabinets.

For more details about our partnership with Leonard Cheshire Disability, please see page 03 or visit www.howdens.com/about-us/leonard-cheshire-disability
UK Manufactured

Howdens Joinery is a British business. This UK logo indicates that the product illustrated is manufactured and assembled in the UK*.

We pride ourselves on a sense of local community, traditional values, and long-established relationships that thrive in our depots and manufacturing facilities.

We have two purpose built state-of-the-art manufacturing sites in Howden, East Yorkshire and Runcorn, Cheshire. We also have a large distribution centre in Northamptonshire, and collectively these sites cover over 6 million square feet.

The UK manufacturing link does not stop there. The trees used to make the chipboard are grown and harvested in the UK, mainly in forests in Northumberland, Scotland and Wales. They are then turned into FSC® certified chipboard in the UK by EGGER and Kronospan.

Your Howdens Joinery guarantee

From the day your builder installs your kitchen, your cabinets are guaranteed for 25 years. Our cabinets undergo over 20 strength and durability tests before they reach your local depot to ensure they exceed British Standards. And all of our cabinet doors are guaranteed for five years to give you total peace of mind.

All of our appliances come with a minimum of a year manufacturer’s guarantee, and our Lamona appliances are guaranteed for two years, with five years on oven door glass.

*When shown with a kitchen range, this refers to the frontal and cabinet; components such as hinges, drawer boxes and handles may be sourced outside the UK. **Subject to availability of the particular frontal model.

Leonard Cheshire Disability

The partnership between Howdens Joinery and Leonard Cheshire Disability is based on a shared belief in the value of local relationships and putting local communities first.

Since 2004, Howdens has worked closely with the UK’s leading charity for disabled people to develop a range of Inclusive kitchens, and to support and empower thousands of individuals across the country – donating almost £2m in the process.

More than just care
Leonard Cheshire Disability helps people with physical and learning disabilities to live independently – not just by providing care and accommodation, but also making it easier for them to develop skills through employment, education and volunteering so they can contribute to their local communities.

Developing Inclusive kitchens
For many residents in Leonard Cheshire homes, preparing food is an important and enjoyable part of life. We have used our knowledge to make this as easy as possible, and have developed a range of Inclusive kitchens, with features and modifications for people of different abilities, many of which have been donated to Leonard Cheshire homes.

‘Can Do’ Project
Since 2011, we have supported and funded the Leonard Cheshire Disability ‘Can Do’ project, which gives young adults with disabilities the chance to volunteer in their own communities, and can lead to employment.

Fundraising and Volunteering
Howdens employees are involved in various fundraising challenges and volunteering projects throughout the year for Leonard Cheshire Disability, including the Dambusters Run and Tri-Together Triathlon. To find out more, visit www.howdens.com/about-us/charitysupport/leonard-cheshire-disability/
Inclusive kitchens

Howdens are experts in designing Inclusive kitchens for disabled people or those with limited mobility.

At different stages of your life, your requirements for your kitchen might change and you may have to adapt the way you approach food preparation, cooking and entertaining.

This is where Howdens’ range of Inclusive kitchens can help. They have a variety of clever features and adaptations, including height adjustable worktops and cabinets. The next few pages talk about these features in more detail, and show the different ways in which you can adapt your kitchen:

- **Fully accessible kitchens** designed for people with physical disabilities
- **Adapted kitchens** offering a mix of clever features ideal for mixed abilities
- **Functional kitchens** that ensure easy access for those with limited mobility

Once you have explored the different adaptations available, choose your kitchen style from one of our three kitchen collections. Each collection has a variety of kitchen styles to choose from and a range of colours and finishes, which are all available as an Inclusive kitchen.

*Technik ranges are not available as Inclusive kitchens*
Planning your Inclusive kitchen

1. Kitchen layout
Position your cooking area, refrigeration and sink to form a triangle and create an optimal working space. Include space for a turning circle if you need to accommodate a wheelchair.

2. Accessibility
Worktops, appliances and wall units need to be at the right height for your needs and may need to be adjustable. You can also choose from flexible plinth heights.

3. Usability
Bar handles and lever-action taps are easier to use, while magnetic pressure catches take the effort out of opening doors.
Plinth options

60mm plinth

223mm plinth

Howdens Inclusive kitchens provide flexibility for users, with the choice of two plinth options.*

60mm Plinth
This lowers the overall height of the unit to 820mm, giving greater accessibility to work surfaces and cabinets. Units at this plinth height can also be used with pull-out accessories for increased functionality.
A wide range of units are available using a 60mm plinth including drawer packs, appliance housing, and units fitted with 170° hinges for greater accessibility.

223mm Plinth
This utilises standard height cabinets that are raised from the floor, allowing wheelchair footplates to pass underneath, for greater access to work surfaces and cabinets. Units available using a 223mm plinth include drawer options and units fitted with 170° hinges for greater flexibility.

Rise and fall mechanism

The rise and fall mechanism allows you to adjust the height of your worktop by 300mm either way, using either a handle or button.

· Total adjustability: 300mm
· Available in 1m, 2m and 3m lengths – but frame can be cut to required length
· Maximum load capacity: 150kg (evenly distributed)
· Compatible with induction, electric and ceramic hobs (not with gas hobs)
· Compatible with sinks when used with our flexible plumbing kit PLU3000
· Height adjustable supporting foot available where floor levelling is required
· A safety feature prevents movement on contact with anything below

*60mm plinth is a standard continuous plinth cut to size. 223mm plinth is a cut down tower decor end.
Functional kitchens

Ensure easy access for those with limited mobility.

Considered use of our accessories and products can ensure that your kitchen is a usable functioning space. Using lowered wall units ensures easy access, whilst storage solutions make the most of our cabinet space, reducing the need to stretch or bend. A Shaker door with copper effect handles gives a warm, traditional look.

See page 14 for our full selection of kitchen styles.

Height-adjustable rear baskets give you easy access and make use of the space.

A side-opening door on your oven means you don’t have to reach over a hot drop-down door, while telescopic runners make the contents more accessible.

Adjustable brackets position wall units at a lower height.

A pull-down shelf allows easy access to wall units.
Adapted kitchens

A mix of clever features ideal for mixed abilities.

Your kitchen can be designed so that anyone can use it independently. By incorporating raised plinths, rise and fall worktops or lowered sinks with a tap, you can ensure everyone is self-sufficient. The use of easy reach storage solutions make cabinets more accessible, and an inclusive tower unit lowers the height of the oven for safe use. Gloss slab doors with an integrated handle give a clean stylish finish to your kitchen.

*Curved plinths are not FSC<sup>®</sup> certified
### Fully accessible kitchens

Designed for people with physical disabilities.

A fully accessible kitchen is designed for disabled people or those with limited mobility. It provides easy access to cabinets, lower worktops for sinks and preparation areas, and can incorporate mobile units for ease of access during use. Raised plinths allow for impaired visibility whilst still maintaining an attractive kitchen space.

Pull-out storage is more accessible.  
Contrasting Black handles are easier for anyone with poor eyesight.  
A rise and fall system allows you to instantly adjust the height of your hob, sink or worktop by 300mm. Electric and manually adjustable options available.  
Wall-hung cabinets leave plenty of space underneath for a wheelchair footplate. You can have a run of these alongside a rise-and-fall system, so you don’t need any floor-mounted units.
The Inclusive Kitchen Collections

We have a choice of over 70 inspirational kitchen styles in stock and each can be tailored to suit your space, taste and budget, and to meet the needs of an Inclusive kitchen.

For a more traditional look and feel, choose one of the kitchens in The Shaker Collection. The Universal Collection is a timeless design that will appeal to those wanting to create a minimalist and modern look and The Contemporary Collection is at the cutting edge of modern design with its super smooth doors with integrated handles and sleek gloss or matt finish.

Each design is fully customisable and they are all available for your builder to pick up from a depot today.

Shaker

The Shaker Collection is a timeless style with a classic door design, capable of being both modern and traditional. With wood grain, plain matt and gloss, kitchens created using our Shaker range can be styled to appeal to a broad taste, from the country classics to the uber cool.

Worktops

Performance and appearance are equally important in a worktop, which needs to stand up to a variety of uses whilst complementing your kitchen frontal. We provide the Light Reflective Value (LRV), so that the visual contrast between surfaces is identified. Visual contrast enables people with impaired vision to gather information about an environment, increasing confidence and independence*. 

Choose a solid quartz worktop with a mirror chip finish or a polished granite worktop for a premium look in your kitchen. Both are 20mm thick.

Solid wood worktops add warmth and character to any kitchen. They can be profiled or grooved to create intricate detailing and will require oiling, waxing or a plastic coating to keep them looking their best. They are available in 27mm and 40mm thicknesses.

Laminate worktops come in a wide variety of colours and textures including a realistic stone-like appearance. Choose from bullnose or square edged profiles.

All worktops come with a 1 year manufacturer’s guarantee. In the unlikely event of a defect in manufacturing or raw materials, we will happily replace any worktop promptly and without charge.

For more details please refer to www.howdens.com/kitchen-collection/kitchen-worktops
Grey Oak Block Effect square edged worktop
A square edged laminate worktop complements any kitchen style, and works well with curved units.

Black granite worktop
This hardwearing surface complements both modern and traditional kitchens in a choice of Black or White granite.

White Marble Effect square edged worktop
A breakfast bar can make a kitchen space more sociable, and maximise your working area.

Grey Slate Effect worktop
Matching upstand and backboard can be used to complete the look.

Quartzstone White square edged worktop
A light coloured worktop provides contrast to dark frontals, complemented by a co-ordinating backboard.

Solid Beech Block 40mm worktop
Create bespoke areas within your kitchen with solid wood block worktop.

Solid Oak Block worktop
Worktop to complete the look.
Sinks and taps

With a wide range of traditional and contemporary styles, our Lamona sinks and taps will suit your kitchen perfectly.

Pair either a stainless steel, ceramic or composite sink with a stylish and practical Lamona tap, available in both modern and traditional styles for the perfect finishing touch.

Lamona branded sinks and taps are exclusive to Howdens Joinery. This means your trade professional is assured of local stock and availability, along with great functionality, reliability and the reassurance of high quality products to suit your Howdens kitchen.

Lever handle taps are more user-friendly requiring no twisting or turning making them easier on the hands and wrists. All our sinks are manufactured and tested to European Standards BS EN 13310:2003.

All Lamona taps comply with the Water Supply (Water Fittings) Regulations 1999.

Lamona taps come with a 12 month guarantee.

For more information please visit www.howdens.com/kitchen-collection/kitchen-sinks
Lamona single square bowl sink with Lamona Chrome Cubic single lever tap
A minimalist, versatile look to your kitchen.

Lamona Chrome Garda swan neck monobloc tap
Lever taps make using the sink area easier with limited dexterity.

Lamona Drayton shallow single bowl sink
Manufactured in the UK, a shallow bowl sink is perfect if wheelchair access is required. It is also usable with a lowered worktop or rise and fall system.

Lamona ceramic Belfast sink
A focal point in your kitchen with a high gloss white ceramic sink.

Lamona Black granite composite single bowl sink
Our composite sinks are highly resistant to impact and scratching.

Lamona Arroscla 3 in 1 hot water tap
Save time and money with a hot water tap that delivers boiling water at the turn of a handle.

Lamona Chrome Professional Style single lever tap
Recommended for high pressure water systems only, this tap complements any contemporary styled kitchen.

Lamona Arroscla 3 in 1 hot water tap
Save time and money with a hot water tap that delivers boiling water at the turn of a handle.

Lamona Chrome Garda swan neck monobloc tap
Lever taps make using the sink area easier with limited dexterity.

Lamona Drayton shallow single bowl sink
Manufactured in the UK, a shallow bowl sink is perfect if wheelchair access is required. It is also usable with a lowered worktop or rise and fall system.
Appliances

We sell a wide selection of Lamona, AEG, Neff and Bosch cooking, dishwashing, laundry and refrigeration products.

All appliances are manufactured to the highest standards and supplied with a 1 or 2 year manufacturer’s guarantee from date of invoice.

LAMONA

The Lamona range of appliances are exclusive to Howdens Joinery and has been selected to perfectly complement our range of kitchens.

Lamona appliances are designed to look great and fit perfectly within your kitchen. They are manufactured to the highest standards to ensure they are durable and reliable, use less energy and water and run quietly, whilst providing excellent value for money.

All Lamona appliances come with a 2 year manufacturer’s guarantee from date of purchase* and what we believe is the best after sales service in the UK. All Lamona ovens also come with a 5 year guarantee on door glass.

Register your Lamona appliances to receive important product updates at www.howdens.com/appliance-registration

Bring appliances to life on the Howdens website. You can learn more about these products in the Kitchen Collection brochure or through our collection of movies at www.howdens.com/advice-inspiration/movies/appliance-movies

*All gas and electrical installations must be carried out by qualified experts, and according to current building regulations and the instructions supplied.
When you have a free kitchen design plan done by one of our expert designers, as a thank you we would like to give you a Lamona cookbook that contains more than 40 recipes for delicious meals, desserts and drinks from around the world.

We have teamed up with food writers and stylists Valerie Berry, Angela Boggiano, Sunil Vijayaker and Seiko Hatfield to create our latest Recipes from Around the World book, with recipes originating in France, Italy, India and The Far East.

Consider installing a new Howdens Inclusive kitchen and you could soon be cooking up a culinary masterpiece and impressing your family and friends. The Lamona cookbook is available from your local Howdens depot.

Here are just some of the mouth-watering recipes that you will find in the new Lamona cookbook.
Lamona Black angled extractor with remote control
Allows extractor to be operated from anywhere in the kitchen by remote control. A variety of glass dimensions ensures that this extractor is compatible with any hob.

Lamona Professional gas hob
A traditional method of cooking food on a hob using gas as fuel with easy to reach front controls.

Lamona side opening single fan ovens
The side hinges allow easy access to the oven whether fitted within a tower or under-counter.

Lamona touch control combination microwave
This easy to use touch control microwave offers a choice of various cooking functions, including combination cooking which uses microwave and oven elements to cook food quicker whilst still retaining the taste.

Lamona touch control 5 zone ceramic hob
Featuring 5 hi-lite cooking zones, including 1 dual zone, this ceramic hob is durable and easy to clean. Touch control at the front reduces the need to reach over hot plates.
Lamona built-under integrated freezer and larder fridge
Built under refrigeration is more accessible for those with limited reach.

Lamona fully integrated dishwasher
Spacious enough for 12 place settings and economical, using only 12 litres of water in a normal wash.

1600rpm Integrated washing machine
1600rpm spin speed helps remove excess water from clothing during the spin cycle.

Lamona integrated 50/50 frost free fridge freezer
Frost free feature prevents the build up of frost and removes the need to defrost the freezer.

Lamona built-under integrated freezer and larder fridge
Built under refrigeration is more accessible for those with limited reach.
Storage, lighting and handles

We have created storage solutions that use space more efficiently to keep your kitchen both beautiful and accessible. Choose from tower, base, corner, drawer and wall storage, and complement these with our range of lighting.

Our handles are hard-wearing and functional, and we also provide the Light Reflective Value (LRV) for partially sighted users.

For more details, please visit www.howdens.com
200mm Pull-out base unit
Make use of a small space with a pull-out base unit.

Timber cutlery tray
Maximise storage space and keep drawers organised with a cutlery tray.

Deep internal storage drawer
Deep drawers extend into the kitchen, providing accessible storage, and can be used in base or tower units.

Corner storage accessory
Provides easy access to products in corner cabinets.

Flexible strip lights
Create bespoke lighting effects with LED flexible strip lights.

Full-height pull & swing larder
A full-height pull and swing larder is an innovative solution to food storage.

Oak twist D handle
A wooden handle adds a traditional look while the D shape is effortless to use. LRV: 24.1

Black square D/knob handle
Contrast between the Black square D handle and White frontal offers a great combination for partially-sighted users. LRV: 4.2

Corner storage accessory
Maximise space and reduce the requirement to bend and stretch to reach items at the back of the cabinet by using the corner storage accessory.

Nickel Effect bar handle
The slimline nickel effect bar handle is a stylish addition which is easier to grip. LRV: 20.6
Flooring, doors and hardware

Howdens offers a variety of flooring, doors and hardware to suit every style and budget.

Our flooring range includes solid wood and laminate flooring in a choice of colours, such as oak, bamboo, American pecan and walnut, as well as different finishes, from timber effect to limestone and slate. We also supply a variety of flooring accessories for a professionally fitted floor.

Howdens Joinery has over 70 door styles to choose from, including internal, sliding wardrobe, external, French and garage doors and a selection of Part M compliant doors. We also offer quality joinery products from hardware and stair parts to skirting, plus the tools, fixings and accessories you need to install them.

Part M joinery doors - Mobility and access
For access and facilities for disabled users, wider doors and reduced threshold heights are required by Building Regulation Part M (selected sizes only).

For more details please refer to The Joinery Collection brochures, or visit www.howdens.com
The award-winning Burford door complements our Burford kitchen range, with co-ordinating skirting, architrave and hardware also available.

Oak Shaker panel and mirror door
These versatile door styles suit a variety of interiors and are ideal where space is limited. They can be used together or on their own with Howdens sliding wardrobe door track.

Oak Shaker panel and mirror door
These versatile door styles suit a variety of interiors and are ideal where space is limited. They can be used together or on their own with Howdens sliding wardrobe door track.

Howdens Professional Fast Fit V Groove Hickory laminate
This quick fit, push down laminate flooring system ensures excellent appearance and performance.

Howdens Professional Fast Fit V Groove Light Grey Oak laminate
Available in a registered embossed finish, this premium laminate flooring has the natural, authentic look of real wood, enhanced by a four sided V groove.

Torus skirting and architrave
We stock a variety of joinery products to suit your individual requirements. MDF mouldings are available either primed or with an Oak veneer, and timber mouldings are manufactured from hi-grade Scandinavian redwood.

Howdens Joinery and the environment

We are committed to protecting the environment, which is why 100% of the timber or timber-based products we manufacture are all FSC® certified and legally harvested from sustainable and renewable sources and produced in a socially responsible way. All our packaging is also from recycled or certified sources.

- FSC® certification on selected ranges
- FSC® certification on laminate worktops and breakfast bars (excluding upstands and backboards) and PEFC™ certification on all upstands
- All manufacturing and warehouse sites have achieved ISO 14001 for environmental standards
- Howdens Joinery Group PLC has been certified for real carbon reduction

For more details, please visit www.howdens.com/about-us/corporate-social-responsibility

Standards and accreditations

We recognise the importance of exceeding our customers’ expectations so, when it comes to manufacturing and testing our kitchen components, we go above and beyond regular industry standards. You can be assured that you are buying quality products that will look good and function perfectly for many years to come.

Manufacturing and Guarantees

• All of our kitchen cabinets, laminate worktops, breakfast bars, upstands, backboards and a selection of our kitchen doors and joinery products are manufactured in the UK as indicated in this brochure
• All manufacturing sites hold BS EN ISO9001:2008 Quality Management System Requirements
• All manufacturing, warehouse and distribution sites hold BS EN OHSAS 18001 (Health and Safety Standard), BS 6222:1999 Part 3 Domestic Kitchen equipment: Durability of surface finish and adhesion of surfacing and edging materials
• FIRA accreditation and FIRA Gold award for product excellence on rigid cabinets and kitchen ranges
• All worktops come with a 1 year manufacturer’s guarantee. In the unlikely event of a defect in manufacturing or raw materials, we will happily replace any worktop promptly and without charge
• Selected worktops use chipboard complying with BS EN 312:2010 Type P3
• All lighting comes with a 2 year guarantee*1. In the unlikely event of a defect in manufacturing or raw materials, we will happily replace any lighting product promptly and without charge
• All appliances meet safety requirements of British and European Standards
• All Lamona appliances and a selection of unbranded appliances come with a 2 year manufacturer’s guarantee from date of purchase
• Howdens is working in partnership with the Association of Manufacturers of Domestic Appliances (AMDEA), supporting the Register My Appliance initiative
• All sinks are manufactured to European Standards BS EN 13310:2015
• All Lamona taps comply with the Water Supply (Water Fittings) Regulations 1999
• Joinery products have FSC® or PEFC™ certification on selected products
• BS 6206/BS EN 12600 or BS EN 12150 on all door glazing

Your Howdens Joinery Guarantee

• Howdens Joinery supplies high quality kitchens cabinetry to trade customers from stock. When professionally installed in the home, these products will provide many years of reliable use. In the unlikely event of a problem occurring with our kitchen cabinetry as a result of a defect in the manufacturing process or raw materials, we will happily, promptly and without charge, replace any cabinet (excluding frontals) for a period of within 25 years from the date of its installation in the UK and any frontal*2 for a period of within 5 years from the date of its installation in the UK. In circumstances where you have a Howdens’ branded kitchen and need to make a claim under this guarantee, please contact your local depot who will be able to help you through the process.

Carbon Trust Standard

• Howdens Joinery Group PLC has been certified for real carbon reduction and commitment to ongoing reductions

To see our pricing and aftersales policy, please visit www.howdens.com/about-us/howdens-pricing-and-aftersales-policy

*1 Excludes bulbs. *2 Subject to availability of the particular frontal model. *3 Some cabinets require additional components to meet Level H standards.
Testing

• A range of rigid cabinets tested to BS6222:2009 Part 2 Level H**, BS EN14749:2016 Domestic and kitchen storage units and worktops and BS6222:1999 Part 3 Domestic Kitchen equipment: Durability of surface finish and adhesion of surfacing and edging materials

• Laminate worktops tested to BS6222:1999 Part 3

• All matt laminate 28mm with P3 grade moisture resistance worktops are tested to and meet FIRA Gold Award standards
