

Fitting Notes

The new standard close clip-on hinges (RKC0480 & RKC0490) require different hinge fixing positions on the back of Greenwich, Greenwich Gloss, Greenwich Shaker and Saponetta kitchen frontals.

The builder will be required to mark and drill new hinge fixing positions using the new hinge as a template.

The frontals will be a non-SKU rolling changeover to the new drilling positions, and stock is mixable with depots having a mixture of new and old stock.
