

Your ingredients. At peak condition

The Bright Series 60 fridge-freezer with TwinTech® No Frost technology uses two separate independent cooling systems one for the freezer, one for the fridge. By ensuring optimal humidity in the fridge, it never needs defrosting.

Product Benefits & Features

Hydrated. Healthy. With TwinTech® No Frost

The Bright fridge-freezer with TwinTech® No Frost technology uses two separate independent cooling systems one for the freezer, one for the fridge. By ensuring optimal humidity in the fridge, it never needs defrosting.

Keeping cool is easy with Internal Electronic Control

The Internal Electronic Control, with LED indicators, takes the guesswork out of food storage. Easy to see and adjust, and it's all at your fingertips.

Lock in nutrients, with FastFreeze

By quickly cooling ingredients with FastFreeze, the most important nutrients are locked in. So you can enjoy better quality meals when you defrost.

Bright LED lights let you see everything inside.

Say goodbye to dark fridge interiors where you can barely see what you're looking for. The soft and even lighting of bright internal LED bulbs give you the visibility you need and are energy-efficient.

It's easy to store items with full width vegetable drawers

Now you can easily organise your bigger fruits and longer veggies any way you want using the full width vegetable drawers.

- For fully integrated, slide door installation
- Net capacity freezing compartment: 61 l
- Net capacity refrigeration compartment: 192 l
- Automatic defrosting of the freezer compartment
- Automatic defrosting of the cooling compartment
- Fast freeze function with automatic return to normal
- Audible and visible high temperature warning signal
- Audible and visible warning signal for open door
- Refrigerator lighting: 1, Integrated to controls
