

### Product overview

Featuring three power sockets and two USB ports, the new SensioPod E is a great addition to any kitchen with a shortage of power outlets.

The pod will sit comfortably on any kitchen worktop, although islands are generally the most popular location, and they can even be mounted on the side of cabinets if space is limited. The locking ring ensures quick and easy installation as well, simply cut a hole in the desired surface, place the pod through the hole and attach the threaded locking ring from the underside.

### Order Codes

Description	Order Code	Barcode
SensioPod E – Aluminium	SE894920	5060522086925
