

Series 6 80cm Slim Fit Induction Hob

Feature	Description
Flex Zone Plus	One hob...four flexible zones. Flex Zone Plus fits different pot and pan sizes and distributes heat flexibly giving you more cooking options. Cook a whole trout in that big steamer one day, then use smaller pots for that complex recipe the next.
5-Burner	Batch cooking or whipping up a feast for a crowd? The 5-burner has you covered for times when all the pots and pans come out.
Magnetic Knob	Control your induction hob with precision. Simply place the movable Magnetic Knob next to the controls you want to use to adjust the temperature with ease and precision, even if you have messy hands! Plus, since it's detachable, you can easily clean the surface of your cooktop in one swift glide.
Slim Fit Induction	Control your induction hob with precision. Simply place the movable Magnetic Knob next to the controls you want to use to adjust the temperature with ease and precision, even if you have messy hands! Plus, since it's detachable, you can easily clean the surface of your cooktop in one swift glide.
SmartThings Cooking	Make cooking simple with SmartThings Cooking. By understanding your needs, it provides personalised recipes and meal plans. It also lets you check the cooktop's settings, while a sensor monitors food to ensure it's cooked properly.
Powerful Induction Cooking	Cooking doesn't get more powerful than this. Induction technology gives you the temperature you need straight away, and is easy to control too. Why not add a power boost to get a quick blast of heat? Just the thing for melting chocolate or making sauces.
Sliding Control	Now you can control and set all your preferences with a simple touch. Because who doesn't want to take shortcuts in the kitchen?
Quick Stop	If a kitchen nightmare strikes, don't panic. Switch off the cooking zone by pressing the quick stop button, and make sure that pan doesn't burn or boil over.
Auto-Pan Detection	Never sure which pot or pan to use? Auto pan detection does the thinking for you and tells you to choose a different one if it doesn't cover enough of the cooking zone.
Child Lock	Keep your children safe, no matter where you are! Through the SmartThings App on your phone, you can remotely switch your induction hob's Child Safety Lock on and off. The GPS-based automation locks or unlocks your hob, so you can leave your home with added peace of mind.
Residual Heat Indicator	For extra safety in the kitchen, the H symbol stays on once the hob is turned off. It's a handy reminder not to touch or clean until itcools down.
Safety Shut Off	Accidents happen, especially when you're busy entertaining. For extra peace of mind, Safety shut-off automatically turns off cooking zones that have been inactive for a while.

Key Specifications
