

# HJA8900 1400rpm Integrated washer dryer

| Technical Information                                |                             |
|--|-----------------------------|
| Appliance energy efficiency                          | A                           |
| Appliance wash efficiency                            | A                           |
| Appliance energy consumption - maximum               | 5.44 kW/cycle               |
| Water control  | Water level control         |
| Estimated annual consumption without drying - energy | 172 kW/year                 |
| Estimated annual consumption without drying - water  | 9,400 litres/cycle          |
| Estimated annual consumption with drying - energy    | 1,088 kW/year               |
| Estimated annual consumption with drying - water     | 78 litres/cycle             |
| Laundry noise level - wash                           | 47 dB                       |
| Laundry noise level - spin                           | 73 dB                       |
| Laundry noise level - dry                            | 58 dB                       |
| Number of programmes                                 | 16 programmes               |
| Laundry load wash                                    | 8 kg                        |
| Laundry load dry                                     | 5 kg                        |
| Automatic load detection system                      | Yes                         |
| Condenser dryer                                      | Yes                         |
| Economy programme                                    | Economy                     |
| Wool programme                                       | Wool                        |
| Delicate   | Yes                         |
| Cottons  | Yes                         |
| Handwash   | Yes                         |
| Mixed synthetic                                      | Mixed and synthetic fabrics |
| Rapid  | Rapid 30 minute             |
| Laundry spin speed                                   | 1400 variable rpm           |

| Technical Information           |                            |
|---------------------------------|----------------------------|
| Display type                    | LED display                |
| Start delay detail              | Start delay up to 24 hours |
| Water supply pressure - min     | 1 bar                      |
| Cold fill                       | Yes                        |
| Water supply pressure - max     | 10 bar                     |
| Electrical supply rated voltage | 230-240 V<br>50 Hz         |
| Supply needed                   | 13 Amp                     |
| Total input power (watts)       | 2,200 W                    |
| Mains lead                      | 1.7 m                      |
| Mains lead plug                 | UK 3 pin                   |
| Accreditation CE                | CE marked                  |
| Approval directives             | LVD<br>EMC<br>RoHS<br>WEEE |
| Guarantee                       | 2 year guarantee           |

| Dimensions & packaging    |                          |
|---------------------------|--------------------------|
| Product dimensions metric | H820mm x W596mm x D550mm |
| Product weight            | 70kg                     |
| Product packed dimension  | H890mm x W600mm x D650mm |
| Product packed weight     | 70kg                     |
