

# Pre-finished Holdenby Oak Glazed

Construction	
Construction	Stile and Rail
Door construction information	Glue and dowel stile and rail
Material core	Particleboard
Core material thickness	28 mm
Country of origin	USA
Lock block additional information	A lock block is not included on this door as it is a solid construction. The lock can be fitted in any location on either side.
Glazing style	Clear

Edging Information		
	Lipping dimensions	Maximum trim
Top		4 mm
Bottom		4 mm
Each side		4 mm
Edging additional information	An equal amount of timber should be removed from each side & bottom. Remaining within the parameters of the maximum trim instructions ensures the construction of the door is not compromised.	

## Fitting and finishing

Any scratches or marks can be retouched with the Pre-finished Grey Hardwood Door Repair Kit  
For identification, the Howdens logo, SKU code and batch number is on the top edge of the door.

Can save the builder up to 6 hours on finishing

Please refer to door instructions for all fitting information.
