

Oak foil

Construction	
Construction	Flush
Door construction information	Constructed using softwood timber stile and rail frame
Material core	Honeycomb paper
Country of origin	Various
Lock block height	360 mm
Lock block width	65 mm
Lock block position	Fitted centrally, to one side only - If the lock block is not indicated by the word 'LOCK' on the top edge, a hole will always be visible on the bottom edge on the side of the lock block.

Edging Information		
	Lipping dimensions	Maximum trim
Top		6 mm
Bottom		6 mm
Each side	6 mm	10 mm
Edging additional information	An equal amount of timber should be removed from each side/ top & bottom. Remaining within the parameters of the maximum trim instructions ensures the construction of the door is not compromised.	

Fitting and finishing

Please refer to door instructions for all fitting information. For identification, the Howdens logo, SKU code and batch number is on the top edge of the door. Doors must be sealed on all edges prior to installation. This door cannot be rebated. Any rebating will expose the pine frame.
