

Oak Foil Fire door

Construction	
Construction	Flush
Door construction information	Constructed using softwood timber stile and rail frame
Material core	Tubeboard or Flaxboard
Core material thickness	37 mm
Lock block additional information	A lock block is not included on this door as it is a solid construction. The lock can be fitted in any location on either side.

Edging Information		
	Lipping dimensions	Maximum trim
Top		0 mm
Bottom		6 mm
Each side	6 mm	4 mm
Edging additional information	An equal amount of timber should be removed from each side. Remaining within the parameters of the maximum trim instructions ensures the construction of the door is not compromised and that the door when fitted complies with the fire certificate.	

Fitting and finishing

Please refer to door instructions for all fitting information. For identification, the Howdens logo, SKU code and batch number is on the top edge of the door.

Doors must be sealed on all edges prior to installation. All fire doors must be fitted in accordance with the fire certificate.

Fire certification available
