

Linear Oak

Construction	
Construction	Stile and Rail
Door construction information	Veneered particleboard construction
Material core	Particleboard
Core material thickness	35 mm
Veneer thickness	0.6 mm
Country of origin	USA
Lock block additional information	A lock block is not included on this door as it is a solid construction. The lock can be fitted in any location on either side, avoiding mid rail joints as this can weaken the structure of the door.

Edging Information		
	Lipping dimensions	Maximum trim
Top	10 mm	5 mm
Bottom	10 mm	5 mm
Each side	10 mm	5 mm
Edging additional information	An equal amount of timber should be removed from each side/ top & bottom. Remaining within the parameters of the maximum trim instructions ensures the construction of the door is not compromised.	

Fitting and finishing

Please refer to door instructions for all fitting information. For identification, the Howdens logo, SKU code and batch number is on the top edge of the door. This door has a particleboard core which may be exposed if rebated. The use of the oak door pair maker is therefore recommended. This door is not suitable for waxes, polishes and/or oils (except Osmo Oil) as these products do not seal the door properly and may cause veneer delamination.
