- Pine parts ready for finishing with paint
- Strength tested for safety
- · Innovative twist bracket to easily fix the rails to newels
- Suitable for stairs with pitches of 40-43 degrees
- FSC[®] certified and sustainably sourced timber

Components required

Inset Glass Panels

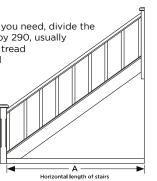

To work out how many Inset Glass Panels you need, divide the staircase horizonal handrail length (mm) by 290, usually 3 packs of 4 are required for a typical 12 tread staircase. For landings, divide the handrail length (mm) by 290

Fixings kits

Each kit contains 2 handrail fixings. Separate kits for landing/rake

Hand & baserails

Pre-routered for inset Glass Panels to slot into and fix with a proprietary adhesive
