

## NOR710

## Datasheet: NOR 710

This revolutionary retro fit seal increases acoustic performance of a standard fire rated door simply and effectively. Its design is based on 'dual air pocket technology' which acts in the same way as triple glazing. The NOR 710 also has smoke seal capabilities in accordance with BS 476 Part 31:1 and is unaffected by door furniture including hinges and latches. We have tested the NOR710 acoustic door seal up to 1,000,000 opening and closing cycles. CF 629

- Acoustically Rated Up To 42dB
- Smoke Seal
- Retro-fit
- Dual Air Pocket Technology
- 1,000,000 Use Cycles
- BS 476 Part 31:1

**Finish:** Black, Brown, White

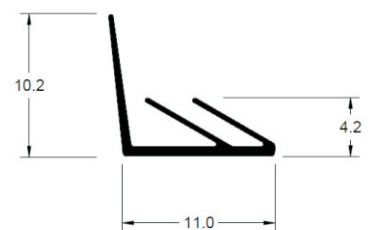

**Material:** Co-Extruded Rigid Base With Flexible Fins

**Fixing:** Self-Adhesive, Surface Mounted

**Length:** 2.1mtr

**Availability:** EX-STOCK

**Application:** Single + Double Leaf Doorsets,  
Single + Double Action Doorsets,  
Suitable For Meeting Stiles
